

Experienced software engineer with strong web development fundamentals and a collaborative mindset, having worked with international teams across Myanmar and Singapore. Skilled in taking ownership of projects from planning to delivery, with a focus on building intuitive, high-quality user experiences in agile environments.

Employment

Front-end Developer @ The Amdon Group (Singapore - Remote)

July 2024 - Present

- Own and maintain the Learning Flow AI Viewer, a key application for rendering learning materials and tools.
- Implemented React Query to minimize unnecessary API calls and re-renders using caching, improving application performance and user experience.
- Implemented 10+ new nodes across the frontend AI Flow Editor, AI Flow Viewer, and backend AI Flow API by leveraging AI agents to accelerate development.
- Collaborated in Agile sprints and daily stand-ups, delivering assigned features and resolving development tickets as part of a cross-functional team.

Front-end Developer @ YSQ International (Singapore)

October 2022 - April 2024

- Designed and developed 6 product websites, 3 company websites, and 5 internal office applications as the sole Front-end Developer.
- Introduced Vite.js and migrated existing applications, reducing build times from 3 minutes to less than 2 minutes, improving overall efficiency.
- Collaborated with cross-functional teams such as Creative, Legal, Marketing, and Sales to develop web applications and consistently meet deadlines.
- Presented live demos of ongoing applications to managers and directors, showcasing progress and gathering valuable feedback.

Front-end Developer @ The Amdon Group (Myanmar)

October 2019 - August 2022

- Contributed to 3 core e-learning projects, building strong front-end foundations.
- Conducted both manual and automated testing using Cypress and Jasmine.
- Utilized AOT compilation in Angular to effectively reduce app loading time by up to 30%.
- Applied the facade design pattern in the development of front-end websites using TypeScript.

Education

B.C.Sc (Software Engineering) @ UIT (Yangon, Myanmar)

December 2014 - November 2019

Level 4 Diploma in Computing @ NCC Education

2014 - 2015

Skills

Frontend: React.js, Next.js, Angular, TypeScript, JavaScript, HTML/CSS, Tailwind CSS

State & Testing: Redux, Zustand, Cypress, Jest

Backend: Node.js, Express, MongoDB, MySQL

Recent Projects

Learning Flow AI @ The Amdon Group

<https://www.learningflow.ai>

LearningFlow.ai is an AI-powered platform that helps educators create lesson plans and teaching materials quickly and creatively. It offers over 50 tools to enhance educational content creation.

Technologies: React.js, TypeScript, Vite, Zustand, HTML/CSS, Tailwind CSS

YSQ International @ YSQ International

<https://www.ysq-international.com>

A company website designed for individuals to discover and engage with our group, explore the company's history, and view available positions for the general audience.

Technologies: React.js, Vite, JavaScript, HTML/SCSS, Context API

STEMWerkz @ The Amdon Group

<https://www.stemwerkz.org>

STEMWerkz is a fun environment for kids to learn about science, technology, engineering, and mathematics through over 4,000 minutes of interactive content.

Technologies: Angular 10, TypeScript, HTML/CSS, Bootstrap, jQuery
